

Ready Mix Concrete Vehicle Requirements

***EACH ¼ LOAD OF READY MIX WEIGHS 1,000 LBS.

**NON-MIXING TUB TRAILERS WEIGH 1,200 LBS.

*MIXING TRAILERS WEIGH ROUGHLY 2,400 LBS.

1. 1/4 and 1/2 loads must have a full-size vehicle equipped with 2" trailer ball and class 2 hitch rated for 3,500#.
2. 3/4 to 1 1/4 yard loads must have ½ ton or ¾ ton full size pickup truck with 2" ball and class three hitch rated for 5,000#.
3. Mixing trailers require ¾ ton truck or larger with 2" trailer ball and class 3 hitch rated for 5,000+#.
4. We recommend a maximum drive time of 15 minutes with non-mixing tub trailers. Non-mixing tub trailers are included in the purchase cost of Ready Mix.
5. We recommend up to a 30 minute maximum drive time when using a mixing drum trailer. A \$50.00 rental fee and \$100.00 cleaning deposit will be added to loads where mixing trailers are requested.
6. All trailers must be returned cleaned out. There will be a minimum cleaning fee of \$50 if returned dirty. Fee is adjustable based on cleanliness of trailer upon return.
